

## Ligue de Championnat du Québec (LCQ) & National League Championship (NCL)

### 16U & 19U PLAYING TIME POLICY

Tiburón Waterpolo Club strives to develop the full potential of each player in the club. However, playing time should not be expected to be distributed equally at all levels

Distribution of playing time shall be at the discretion of the coaches

The head coach has the authority to address / adjust playing time if necessary

The coach will balance between individual goals and team skills with a successful competitive experience.

The competitive stream in each age group will have a performance focus. Players who accept selection on a competitive team may not get equal playing time

The recreational / development stream will have a developmental focus. All players will get playing time during games and tournaments

For all invitational tournaments, effort will be made to ensure that all registered players will receive appropriate playing time

In order to achieve this balance, playing time will be based on the following factors:

- The player's attitude, focus, sportsmanship
- The player's effort and responsiveness to coaching instruction
- The player's attendance
- The number of players on the team available to play
- The level of play for league play, a competitive tournament and/or special competition

These factors may increase or decrease a player's time in a particular game, or tournament.
